

Science Toolbar

The RM Easiteach Science Toolbar allows you to integrate connected devices like digital and web cameras, electronic microscopes and desktop visualizers, to enable the projection of images to the whole class. These images can then easily be edited and interacted with the toolbar. Tools included are: select image source, image capture, rulers, calipers, magnetic lines, stopwatch and timers, and science symbols and units. *For more information, please see RM Education 2009 catalog page 10.*

RM Product Solutions

TITLE I provides supplemental funds to local education agencies (LEAs) for schools that have high concentrations of students from low-income families to help ensure that all students reach proficiency on State assessments in reading and mathematics.

RM Easiteach Science Toolbar will help teachers and students:

- » Reach proficiency on state assessments in language arts, history, science and mathematics and improve standards and assessments through it's interactive content, toolbars and lessons.
- » Provide best practices and improve teaching by providing interactive content and tools.
- » Improve in the collection and use of data to drive reforms through it's voting reporting system.

IDEA: The purpose of the Special Education Grants to States program, as authorized under Part B of the Individuals with Disabilities Education Act (IDEA), is to help to ensure that children with disabilities have access to appropriate public education.

RM Easiteach Science Toolbar will help teachers and students:

- » Obtain state-of-the art assistive technology devices to enhance access to the general curriculum for students with disabilities.
- » Provide proven and innovative strategies in reading, math, writing and science, and positive behavioral supports to improve outcomes for students with disabilities.
- » Develop or expand the capacity to collect and use data to improve teaching and learning.

EETT provides grants to improve student academic achievement through the use of technology in schools and encourage the effective integration of technology with teacher training and curriculum development.

RM Easiteach Science Toolbar will help teachers and students:

- » Improve student academic achievement through the use of technology in schools.
- » Assist all students in becoming technologically literate.
- » Encourage the effective integration of technology with teacher training and curriculum development in order to identify successful research-based instructional methods.

SFSF - Stabilize State and local government budgets to avoid reductions in education and other essential public services while driving education reform in four key areas: teacher effectiveness and inequities in the distribution of highly qualified teachers; rigorous college- and career-ready standards and assessments; targeted, intensive support and effective interventions to turn around struggling schools; and pre-K-through-college-and-career data systems.

RM Easiteach Science Toolbar will help teachers and students:

- » To reach the goal of increasing America's talent pool by improving K-12 science and mathematics education.
- » Strengthen the skills of teachers through additional products, materials and content in science, math and technology.
- » Improve student achievement through school improvement and reform.
- » Strengthen and expand early learning.
